Incoming adiction. Beautifully done pixel art in a colorful yet dark mood. I love the original character sprites and portraits and the modern city done in a retro yet fresh style. I'd love to see more resources in the style. Cyberpunk would work great with these types. Futuristic and Space opera too. Thanks for the awesome resource.. There is no escape from Monkey Kombat™.. here's a good fast-paced shooter game. the level design is good as the gameplay is. some minor bugs here and there which don't ruin the experience. great sprite-style graphics and sticky zombie part all over the floor ;)

it's the typical game you can pick up and play for 10 minute at a time when you're bored.. Great, fun little game. Buy it!

Fun small game, reminds me of the ones I used to play when I was little. Very good game, played good. I appreciate the effort put into this (pun intended) very great puzzle game, with good pictures ;D. Awesome, its a new Playstation Home. Very much work in progress, can't say more at this point.. A nice time waster , not a difficult one but still good .. funny so good. A pretty fun game, with a hard-to-master mechanic for a shoot-em-up. Your shoot and movement are tied to the same action and, more importantly, your shoots have recoil.

This game is very simple, but there's a lot of content too:

- The arcade difficulty is too high? Play through the game in the stress-free mode!
- Have friends to play with? Try the co-op mode!
- Got bored of jolly cooperation? Try the duel mode!

There are a lot of "power-ups" that show up during gameplay too. It makes the whole shooting and moving all the more strategic, in my opinion. The orbiters are kind of overpowered, though (not that I mind, this game gets tough fast)

If you're feeling the nostalgia for arcade style shoot-em-ups, you should try this game.
